

**“Waste Management Container fully equipped to meet the individual needs of our customer and market”**

## **MARINE & OFFSHORE MORTIM CONTAINERIZED WASTE MANAGEMENT SOLUTIONS**

MARINE

OFFSHORE

NAVY

ONSHORE

**MORTIM has been developed for waste handling of larger amounts of solid waste in the Marine and Offshore Industry and is in line with the new MARPOL Annex 5/IMO MEPC 201 (62) regulations for waste handling on board vessels.**

For existing vessels it is a common problem that no space inside the ship is available for waste handling or storage and a high number of people on board just increases the problem. Retrofit is difficult and expensive, as such vessels are often at sea and port visits can be very seldom. In particular special vessels such as Offshore Installation and Construction Vessels among others are candidates for flexible solutions. This is where MORTIM is the right choice.

**KEY FEATURES OF MORTIM:**

- Get it on board when needed.
- Reduce waste volume by more than 80%
- Various Sizes available from 20ft to 40ft
- Fully insulated
- Access ramps
- Equipped with high performance stainless steel compactors, shredders, glass crushers and others.
- Waste segregation

**OPTIONS:**

- Different storage solutions
- Cooling
- Sink
- Fire Fighting solutions
- Various interfaces
- Oil Filter and Oil Can crushers and other waste handling equipment
