DT-1500B
BALER

“Waste management equipment for the demanding maritime and offshore industry that gets the job done efficiently, safely and in an environmentally responsible manner.”

The DT-1500B is manufactured in stainless steel and especially suited for use onboard ships and offshore installations. This is a heavy-duty baler commonly used for volume reduction and strapping of recyclable waste fractions such as PVC materials, paper & cardboard etc. The baler has a large front loading hatch which eliminates time consuming pre-cutting of large cardboard pieces.

Key Benefits:

- Designed in stainless steel for indoor or outdoor placement.
- Delitek Products are verified for use in marine and offshore industries by DNV.
- Powerful electro/hydraulic drive for high press force.
- Large loading hatch.
- Baling directly on standard EUR-pallets.
- Easy installation and operation (Plug & Play).
- Alternative power supply: Pneumatic/hydraulic.

Technical specifications

Material	Stainless steel AISI 304 or AISI 316
Capacity	1M^3 (bale size: 1,25m x 0,85m x 1,05m - 350-450kg*)
Loading opening (W x H)	1240mm x 510mm
Compaction force (Max)	15 tons
Dimensions (W x D x H)	1604mm x 1187mm x 2790mm
Weight	540 Kg
Motor voltage	220V / 380~440V, 3Ph, 50~60Hz
Motor power	<1,8 kW
Noise level	<65dB

**Depending on material*
