

DT-220PN WASTE COMPACTOR

“Waste management equipment for the demanding maritime and offshore industry that gets the job done efficiently, safely and in an environmentally responsible manner.”

The DT-200PN waste compactor is manufactured in stainless steel and especially suited for use onboard ships and offshore installations. The compactor is delivered with a wheeled C-200 container for easy and effective waste logistics.

The modular design of the DT-200PN makes it perfectly suited for source segregation according to MARPOL guidelines, simply by adding extra containers for different waste categories.

MARINE

OFFSHORE

CRUISE

YACHT

FISHING

ONSHORE

The DT-200PN can be used as a free-standing unit or in combination with other DT200series products as the C-200 container is interchangeable between them. Combining a DT200series waste compactor and shredder is the most effective way to ensure extreme volume reduction and significantly reduced waste handling cost.

Key Benefits:

-
- Stainless steel design for indoor and outdoor placement.
- Ideal for indoor installation onboard vessels and retrofit.
- Compaction directly into HD Plastic bags for easy and safe deployment of waste.
- Delitek Products are verified for use in marine and offshore industries by DNV.
- Equipped with pneumatic piston.
- Easy installation and operation (Plug & Play).
- Alternative version available with 3 tons press force.
- EX/ATEX version with DNV unit certification available.

Technical specifications

Material	Stainless steel AISI 304 or AISI 316
Capacity	0,2 m ³
Loading opening (W x H)	550mm x 230mm
Compaction force (Max)	1500 / 3000 Kg
Dimensions (W x D x H)	760mm x 699mm x 1983mm
Weight (Incl. container)	156,3 Kg
Noise level	<78dB Max

*All specifications are subject to change without notice.
