

DT-230SR SHREDDER

“Waste management equipment for the demanding maritime and offshore industry that gets the job done efficiently, safely and in an environmentally responsible manner.”

The DT-230SR is manufactured in stainless steel and especially suited for use onboard ships and offshore installations. The compactor is delivered with a wheeled C-200 container for easy and effective waste logistics.

The modular design of the DT-230SR makes it perfectly suited for source segregation according to MARPOL guidelines, simply by adding extra containers for different waste categories.

YACHT

FISHING

ONSHORE

The DT-230SR can be used as a free-standing unit or in combination with other DT200series products as the C-200 container is interchangeable between them. Combining a DT200series waste compactor and shredder is the most effective way to ensure extreme volume reduction and significantly reduced waste handling cost.

Key Benefits:

- Stainless steel design for indoor and outdoor placement.
- Shredding directly into bags for easy and safe deployment of waste.
- Delitek Products are verified for use in marine and offshore industries by DNV.
- Ideal for indoor installation onboard vessels and retrofit.
- Powerful electric motors for high shaft torque.
- Easy installation and operation (Plug & Play).

Technical specifications

Material	Stainless steel AISI 304, AISI 316 or painted steel
Capacity	0,2 m ³
Loading opening (W x H)	593mm x 395mm
Dimensions (W x D x H)	781mm x 1103mm x 1953*mm (*2181mm with open hatch)
Weight (Incl. container)	376,5 Kg
Motor voltage	380~440V, 3Ph, 50~60Hz
Motor power	3 kW
Shredding surface	260mm x 290mm
Shaft torque	1900 Nm
Noise level	<70dB Max

*All specifications are subject to change without notice.
